Restaurant/QSR

At a Glance

- Commercial Grade Design
- High Brightness and Contrast Ratios
- Landscape and Portrait Orientation

V4270I-U

PulseIR (infra red)
Sealed Panel Design
USB Connection

The V 42" Touch Display is one of TouchSystems' more budget-conscious displays, but the price tag is perfect for the person entering the touch technology arena. The display is a high-definition LCD, ensuring crisp images and brilliant colors. The display is integrated with PulseIR (infra red), a technology that enables multiple touch points and mitigates ghosting. The display can be mounted vertically or horizontally, which allows it to be featured in a variety of environments and venues.

Retail

The V 42" Touch Display provides a selection of inputs, allowing for better management of one's digital signage.

Medical

The V 42" is built to last. Its commercial-grade design is designed for high-traffic spaces.

Hospitality

The display's high brightness and contrast ratios will present images in their best light.

Restaurant/QSR

Use the display to announce new menu items, specials, nutritional information, or the newest foursquare Mayor.

Specifications
